

Lymphoma/leukemia diagnosis for targeted therapy

Lymphoma diagnosis and targeted treatment is challenged by the introduction of new drugs and refinements in the definition of new entities. This FJD Symposium will cover new markers and opportunities for a precision lymphoma medicine

Oct 18-19th, 2018

Fundación Jiménez Díaz Madrid

Provisional program

Oct 18th

1000-1015: F Rojo/P Llamas/C Ayuso: Meeting introduction

1015-1045: Graham Collins: Immunotherapy for Non-Hodgkin's Lymphoma

1045-1200: Clinical case discussion Forum

Case 1. R Córdoba (FJD): Primary mediastinal LBCL

Case 2. G Salvatierra (FJD): Primary mediastinal LBCL

Case 3. Monica Garcia Cossio (HRyC): Plasmablastic lymphoma

Case 4. M Boiza (FJD): HHV8 lymphoproliferative disorders

Case 5. Pedro Henrique (FJD): Monoclonal gammopathy and lymphocytosis

1200-1230: Café

1230-1300: JF Piqueras/M Villa (CBM): Molecular basis of T cells lymphoblastic leukemia

1300-1400: Clinical case discussion Forum

Case 6. SM Rodriguez Pinilla (FJD): NK/T-cell lymphoma

Case 7. J Forteza (Universidad Católica de Valencia), Hodgkin Lymphoma vs. Diffuse Large B-cell lymphoma

Case 8. F Camacho (Hospital Universitario de Getafe) : Progression in SMZL

Case 9. P Dominguez (HURJC): EBV+ lymphoproliferative disorder

1400-1500: Lunch

1500-1530: Marta Rodriguez: Nanostring data in T-cell and B-cell lymphoma

1530-1700: Clinical case discussion Forum

Case 10. Anabel António/R Córdoba (FJD): ALK+ Large B-Cell Lymphoma

Case 11. Deisy Cieza (FJD): CTCL/ALCL

Case 12. P Beltran (HUIE): Gray zone lymphoma

Case 13. C Santonja (FJD): Cutaneous lymphoma or autoimmune disorder?

Case 14. M Mollejo (HVS, Toledo): Splenic lymphoma

Case 15. Lucía Prieto (FJD): Atypical presentation of a cutaneous T-cell lymphoma

Oct 19th

0900-0930: M Roemer, Predicting Outcome After Programmed Death 1 Blockade in Classic Hodgkin Lymphoma

0930-1100: Clinical case discussion Forum

Case 16. JF García (MD Anderson Madrid): Hodgkin Lymphoma, therapy resistance

Case 17. C Montalbán (MD Anderson Madrid): Hodgkin lymphoma

Case 18. T Villaescusa (FJD): Hodgkin Lymphoma

Case 19. G Salvatierra (HURJC): Angioimmunoblastic TCL

Case 20. R Salgado (FJD): AITL/MDS/AML

Case 21. T Arquero (FJD): T-cell lymphoma

1100-1130: Café

1130-1200: T Eyre: Mecanismos of resistance of BTKi in CLL and MCL

1200-1300: Clinical case discussion Forum

Case 22. M Sanchez-Beato (Hospital Universitario Puerta de Hierro) : CLL progression

Case 23. Gala Vega (FJD): MCL-Case 1

Case 24. S Martin (FJD): MCL- Case 2

Case 25. R Salgado (FJD): Splenic lymphoma

1300-1330: E Campo: CyclinD1-negative Mantle Cell Lymphoma

1330-1400: S Barrans: Molecular profiling in the diagnosis of DLBCL

Clinical case discussion Forum

Instructive lymphoma/leukemia cases presented by both clinicians and pathologists will be discussed along 5 different sessions, in total more than 6 hrs. In principle, 25 cases will be selected from submitted proposals

Cases are expected to cover new areas of lymphoma/leukemia diagnosis and targeted treatment

Scientific Committee: P LLAMAS, F ROJO, M PIRIS, SM RODRIGUEZ-PINILLA, R CORDOBA
